Allowable Subject Matter

1. Claims 1,2,5-13,16-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding the claims, applicants arguments filed on 7/7/03 were persuasive. Thus, the prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of the claimed features as presented in independent claims, which at least includes a width of an image in the horizontal direction is determined such that an angle formed between two lines extending from a point in said central field to both ends of the image become at least 20 degrees as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
